

All About Your Voyage

Jim Medlock - April 2023
Chingu

What is a Voyage?

Reminder: Submit your Commitment Form ASAP

- Goal: Work together to build apps to build experience
 - Team project
 - 6-weeks (sprints) in length
 - Follow the Agile Methodology
 - Build “soft skills” and refine technical skills
- Projects
 - Tier 1 & 2: A project specification will be provided when the Voyage starts
 - Tier 3: Decide on the project they wish to build

How are teams formed?

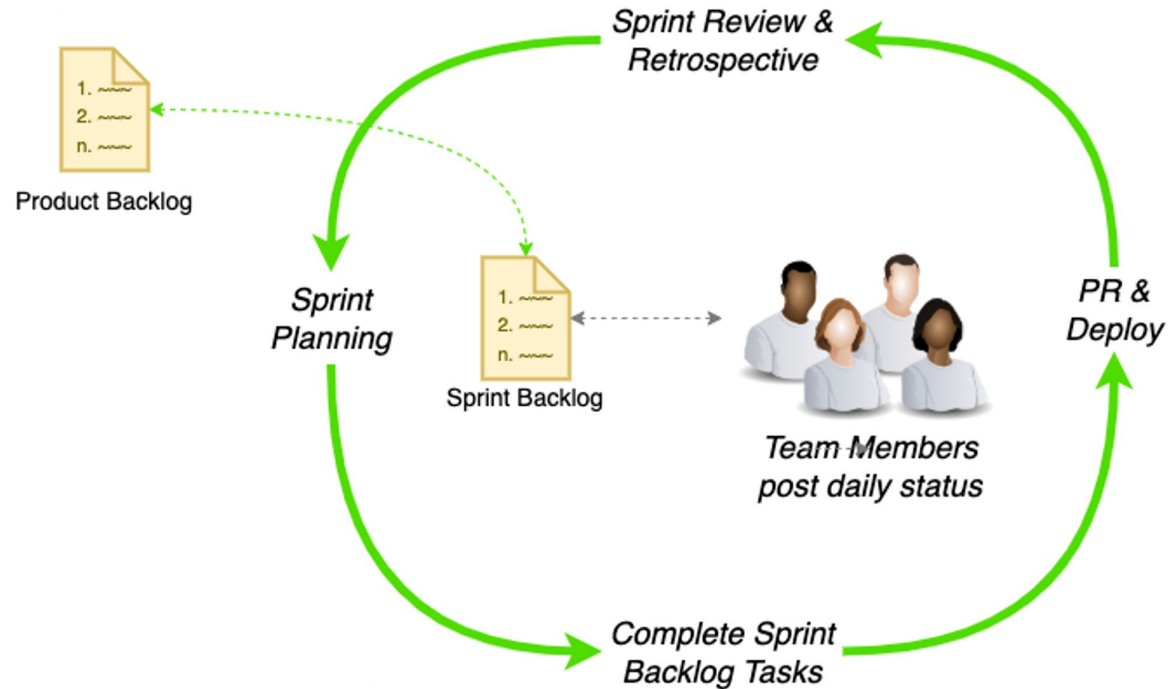

- Roles
 - Product Owner
 - UI/UX Designer
 - Data Scientist
 - Web Developers
- Formation rules
 - Same Tier
 - Timezone (+/- 3)
 - Technical preference
- Team size - 4-6 teammates

} *Based on signups*

What's required?

- Be respectful & support your teammates
 - Don't ghost your teammates!!!
- Average 8-12 hours/week
- Active listening, communication, and collaboration
- Hold a weekly sprint planning meeting
 - Review & retrospect on prior Sprint
 - Decide what tasks to complete in current Sprint
- Submit the weekly check in form
- Follow the Scrum Framework
 - Plan before coding
 - Iterate detail design, development, testing, & deployment in each Sprint
 - Limit your focus to current Sprint tasks

Scrum Framework

How to be successful

- Read & follow the Voyage Guide
- Start with a small project scope - add to it after reaching MVP
- Don't commit to more tasks than you can complete & finish what you've said you'll do
- Daily participation in team channels
 - Be an active listener
 - Post status
- Attend all team meetings
 - But, at least let your team know if you can't
- Be Agile - adapt to new information + changing conditions
- Support your teammates!
